Education

Fruita Monument High School

Final GPA (Cumulative): 4.3

Fruita, CO

Aug. 2021 – May 2025

University of Colorado Boulder

Undergraduate Major in Computer Science & Creative Technology and Design

Boulder, CO

Aug. 2025 – Present

Experience

Girls Who Code Club President

Fruita Monument High School

August 2022 – May 2025

Fruita, CO

- Lead development for a Python game for the GWC 2024-25 challenge
- Assisted members with their coding and integrated their ideas into events
- Created a club fair board and helped with recruitment in both GWC Club and general computer science classes

Veritas AI Scholars Bootcamp

Zoom

July 2023 – September 2023

Virtual Classes

- Learned general AI functions and machine learning
- Created a predictive AI through Google Colab
- Developed an AI that could predict the length of hospital stays as a final group project
- Gathered data for said group project and presented to the other groups at the end of the bootcamp

Teen Advisory Group

Mesa County Library

October 2024 – May 2025

Grand Junction, CO

- Attended meetings and provided inputs in group discussions about library events (especially ones including teens)
- Contributed idea about potential collaboration with local artists for a coloring book, which got accepted and turned into reality
- Helped create hand-puppets for children's puppet shows outside of meeting hours

Projects

Personal Website | *GitHub, HTML, CSS, JavaScript, Bootstrap*

January 2025 – August 2025

- Developed a website using the framework Bootstrap and hosted it on GitHub
- Organized the site specifically to showcase my art portfolio for potential commissions
- Used JavaScript for animation between pages

Nonogram-Centric Visual Novel | *Python, Ren'Py*

April 2025 – Present

- In the process of developing a visual novel using Ren'Py, incorporating nonogram/picross minigames
- Contributed an auto completion check and skip button to 3D33P's "Ren'Py Minigames" Repository
- Received personal feedback and incorporated code from visual novel game developer NomNomNami

Interactive Fiction | *HTML, CSS, JavaScript, Twine*

June 2025 – Present

- In the process of developing an interactive fiction game using Twine
- Refined and fixed bugs on a Twine Sugarcube template by Vanhya using CSS and JavaScript
- Collaborated with beta-readers for bug-checking in code and story editing for grammatical errors
